Dear City of Troy Team:

Please accept this letter as an opportunity to express our appreciation and compliments for the roles you played in helping to achieve the project of cement work that was required in opening up the driveway access to Amtech Electrocircuits.

The difficulty of semi-trucks running over the lawn and the safety issue that was a possibility to us and the surrounding businesses because of the dead end street has now been eliminated with the completion of the service you provided.

I would also like to thank all involved for the improvements of my property at 6130 Rochester Road and for improving the residential street at my driveway at 3389 Shakespeare Road.

You all demonstrated willingness to participate to make these issues successful for us without any extra cost shows the level of service the City of Troy should acknowledge and congratulate.

We will continue to grow and prosper only because we found some great friends like you who gave us loyal support along the way.

So this is a Thank-you but also a Holiday greeting towards all the departments for the services we experienced by your contribution to these projects!

Sincerely,

With best wishes for a healthy and happy
Holiday Season and New Year 2013!
